

# Louie Kwon

Software Engineer & Builder

Email: [louiekwon@snu.ac.kr](mailto:louiekwon@snu.ac.kr) | GitHub: [github.com/louiekwon0111](https://github.com/louiekwon0111)

## Profile

I build reliable, well-crafted software - from backend systems to polished web experiences. I am passionate about clean code, thoughtful design, and solving real problems.

## Education

|                           |                                               |
|---------------------------|-----------------------------------------------|
| Seoul National University | B.S. Computer Science & Engineering (2025 - ) |
| Hansol High School        | 2022 - 2024                                   |
| Gumi Middle School        | 2019 - 2021                                   |

## Skills

Python | C++ | Java | Git | HTML | CSS | GitHub Pages

## Experience

**GitHub Pages Personal Website** - HTML, CSS, Git, GitHub Pages

Built and deployed a responsive personal website with profile, CV, projects, contact information, planned courses, and AI usage disclosure.

**OOP Course Project** - C++, Object-Oriented Programming

Designed and implemented a course project using object-oriented programming principles and C++ class design.

## Projects & Activities

- Personal website: Static GitHub Pages portfolio with accessible navigation and responsive design.
- OOP Course Project: C++ project focused on class design and maintainable code structure.

## Interests

Software engineering, AI, web development, clean interfaces, and practical problem solving.
